

## RGE Tech Tips from the Field – Client Edition

*Topic: Spring Cleaning for Privacy*

Chip's Weekly Cheat Sheet: May-25 🗝️

Topic: Digital "Spring Cleaning" for Privacy

### 1. Check Your "Permissions."

- Many apps have access to your location or your microphone even when you aren't using them.
- **Chip's Tip: Go to your phone's "Privacy" settings and turn off "Location Services" for any app that doesn't need to know where you are.**

### 2. Clear Your "Browser Cache."

- Websites store little bits of data on your computer, but over time, this can make your browser sluggish.
- **Chip's Tip: Clearing your "History" once a month keeps your browser feeling brand new and snappy.**

### 3. Update Your "Recovery" Info

- Make sure your "Recovery Email" and "Phone Number" are up to date on your Google or Apple account.
- **Chip's Tip: This is your only lifeline if you ever forget your password. Double-check it today!**
