

## RGE Tech Tips from the Field – Client Edition

Topic: Making a Digital Brag Book

Chip's Weekly Cheat Sheet: Jun-22 

Topic: Making a Digital "Brag Book"

### 1. Create "Themed" Albums

- Group your photos by event, like "Grandkids 2026" or "Arizona Trip." It makes them much easier to show off during dinner.
- **Chip's Tip: You can even name an album "To Print" for the next time you visit the pharmacy photo counter.**

### 2. The Digital Photo Frame

- If you have a tablet or an old phone, you can set it to "Slideshow" mode and turn it into a moving picture frame for your side table.
- **Chip's Tip: This is a great way to enjoy your photos every day instead of leaving them "trapped" in your phone.**

### 3. Order a Physical Book

- Services like Google Photos let you turn an album into a professionally printed "Photo Book" for a small fee.
- **Chip's Tip: These make the best gifts for Father's Day or birthdays—everyone loves a real book they can hold**
